

Assembly Instructions

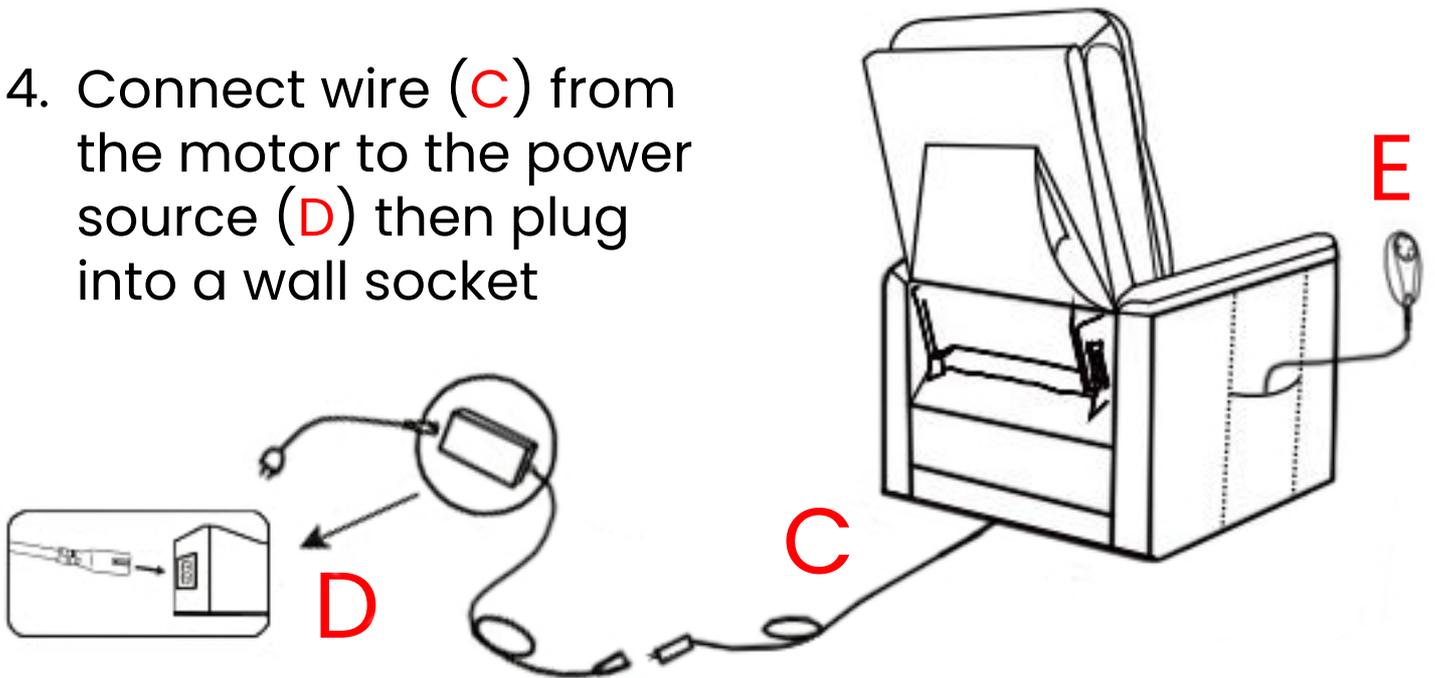

1. When delivered, the chair will arrive in 2 boxes.

2. Insert the backrest (A) onto the base (B) over the 2 struts.

3. Gently push down until the backrest clicks into position.

4. Connect wire (C) from the motor to the power source (D) then plug into a wall socket

5. Handset (E) is located in the side pocket and is already connected to the mechanism

Lumber Adjustment Option - If the chair has the adjustable lumber option, there will be an additional cable to be connected before use
